

# Your money. Less mystery.

A clearer view of daily spending, monthly budgets, and the subscriptions that quietly add up.

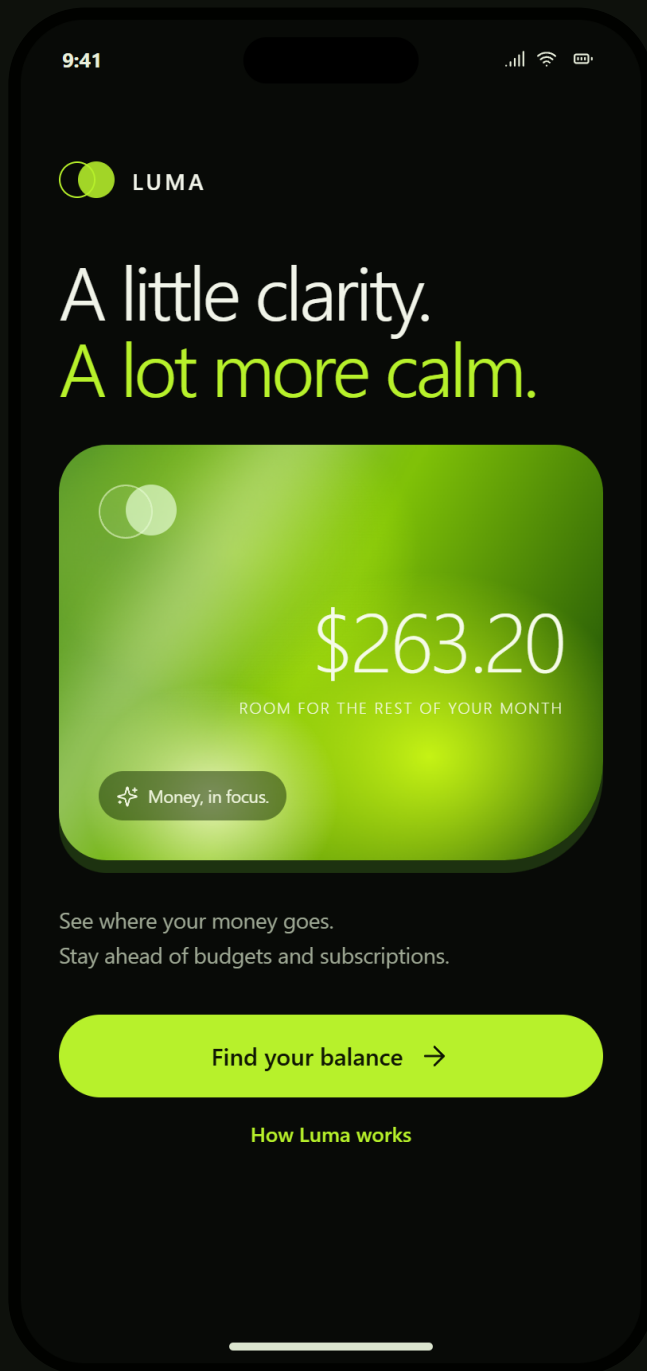

17 connected screens. One calmer month.

Interactive companion: [luma-showcase.html](#)

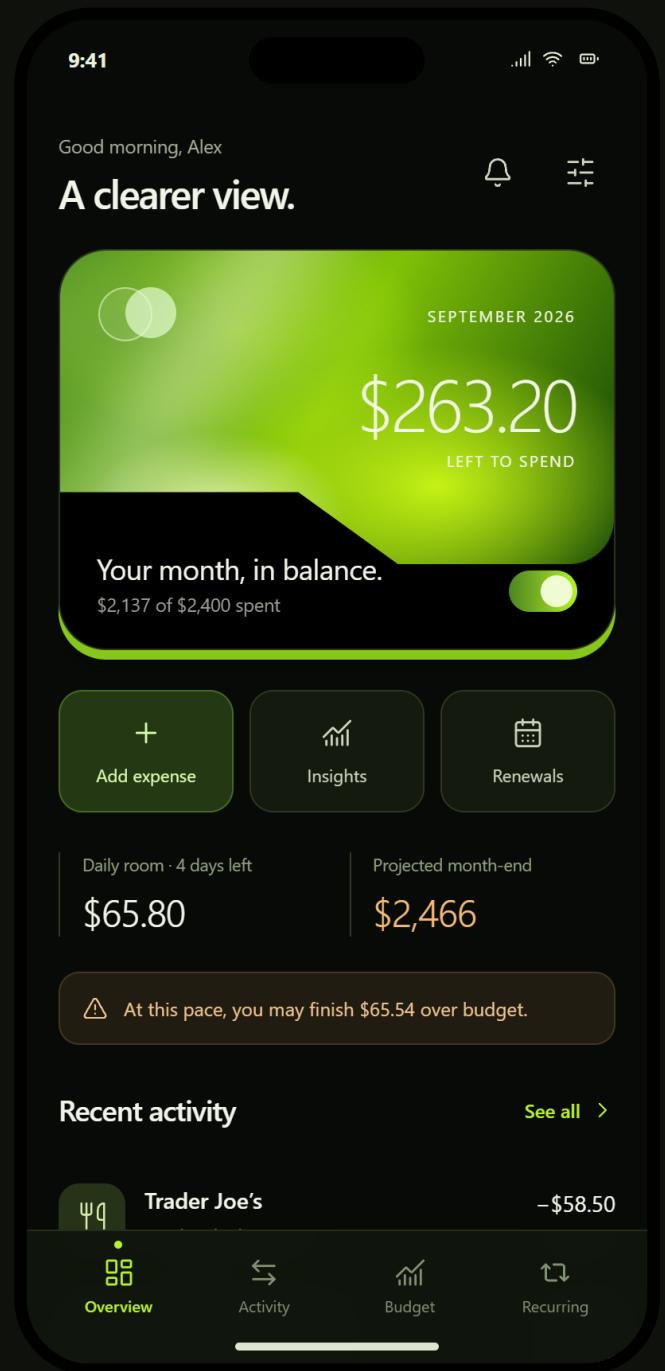

# A clearer view of the month

A connected dark interface shaped by the supplied visual reference.

## 01 Welcome

A minimal introduction carries the referenceâ€™s luminous lime surface, overlapping circles, and light numerical typography.

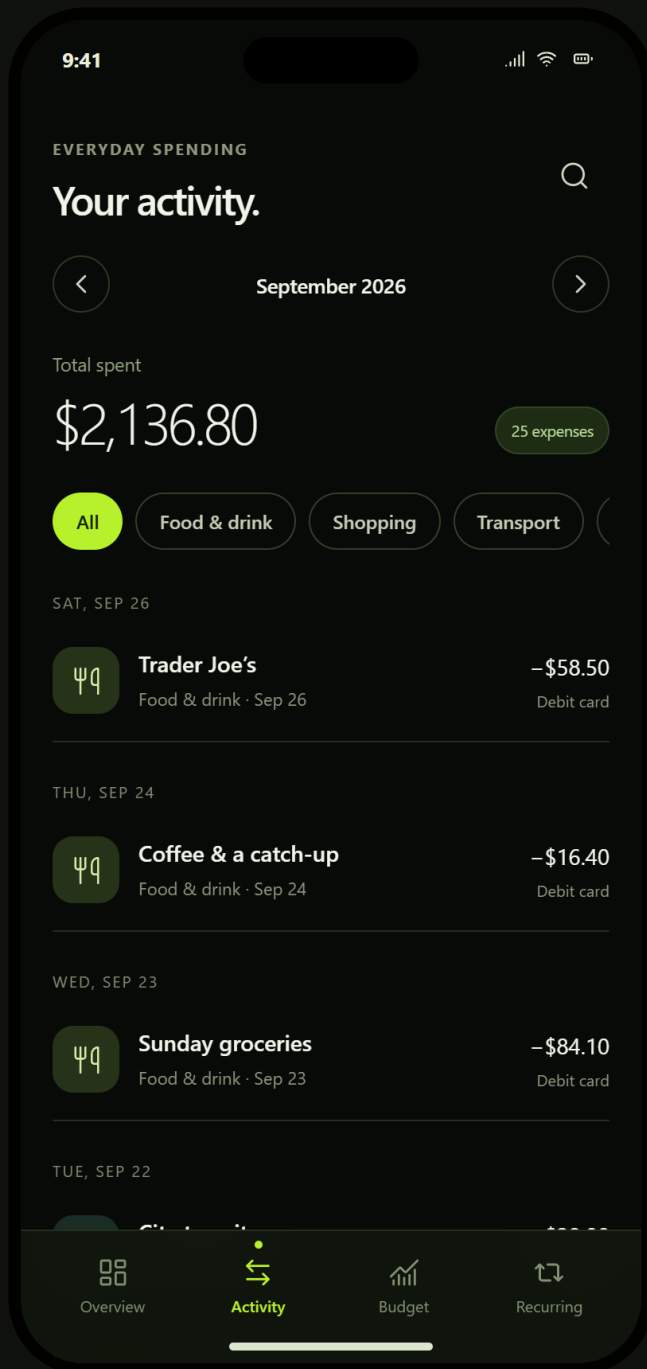

## 02 Monthly overview

A live balance, spending pace, and recent activity bring the month into focus.

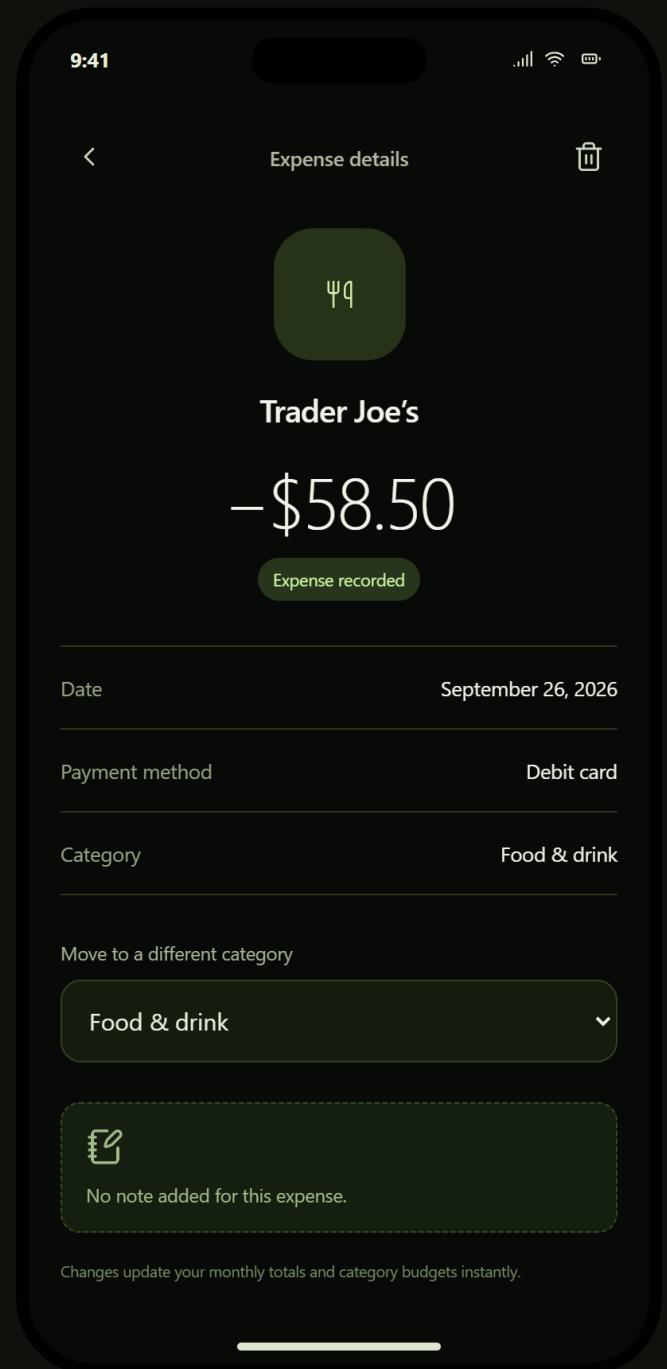

# Every purchase, in context

A connected dark interface shaped by the supplied visual reference.

## 03 Transactions

An open transaction list groups purchases by date, with category filters and month navigation.

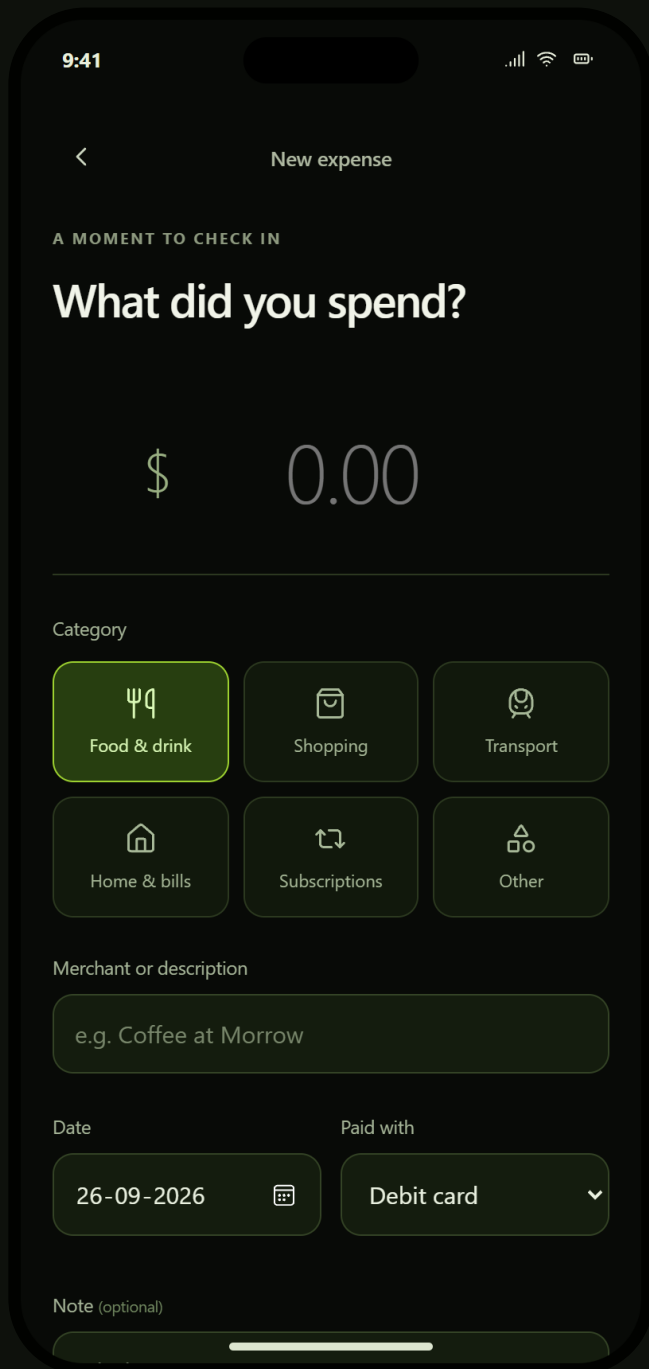

## 04 Expense detail

Clear amounts and compact metadata make a transaction easy to review, recategorize, or remove.

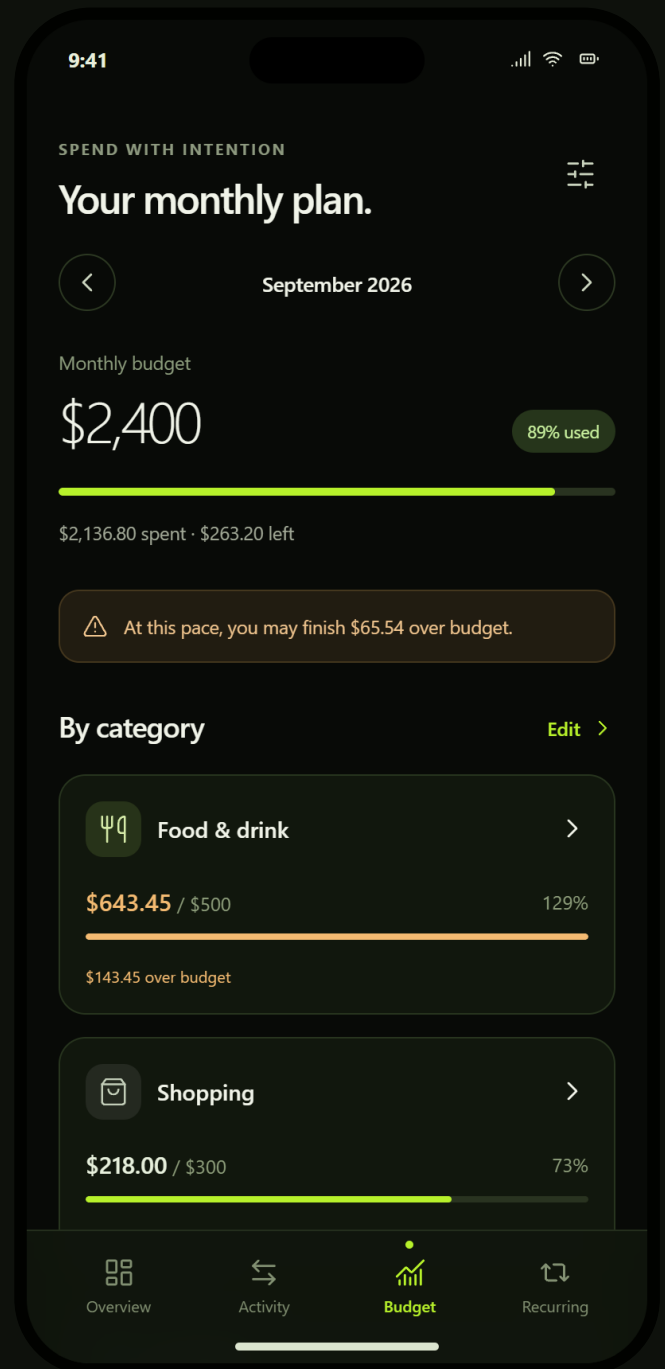

# Track what matters. Plan what is next.

A connected dark interface shaped by the supplied visual reference.

## 05 Add an expense

A large amount field and direct category choices make logging a purchase feel effortless.

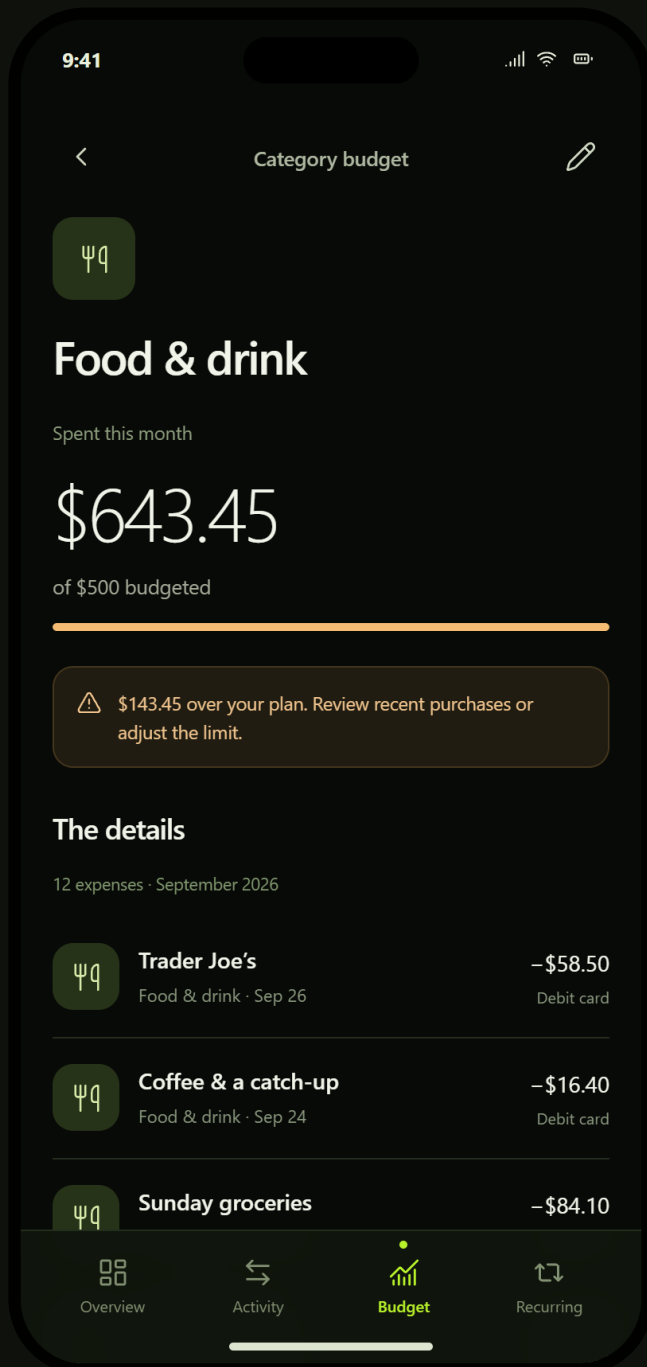

## 06 Monthly budgets

Category budgets show the amount spent, room remaining, and clear over-budget states.

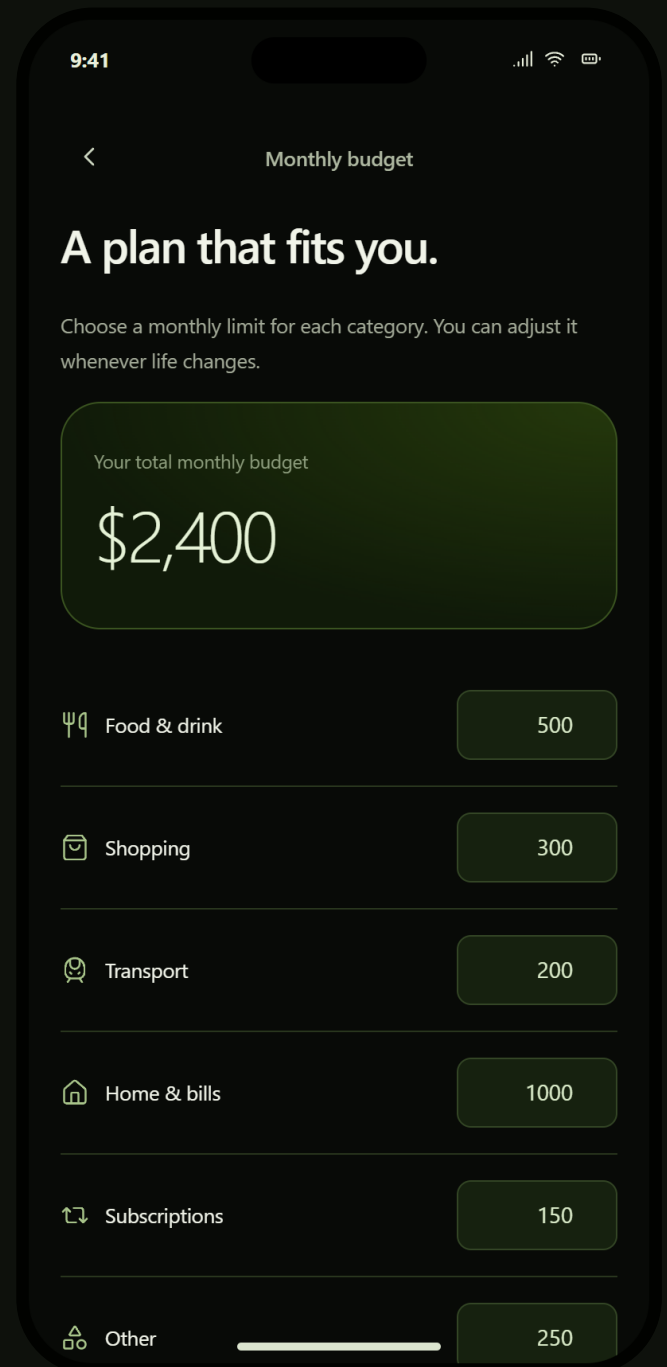

# A budget that fits your life

A connected dark interface shaped by the supplied visual reference.

## 07 Category detail

A category view connects its budget to the purchases that shaped it.

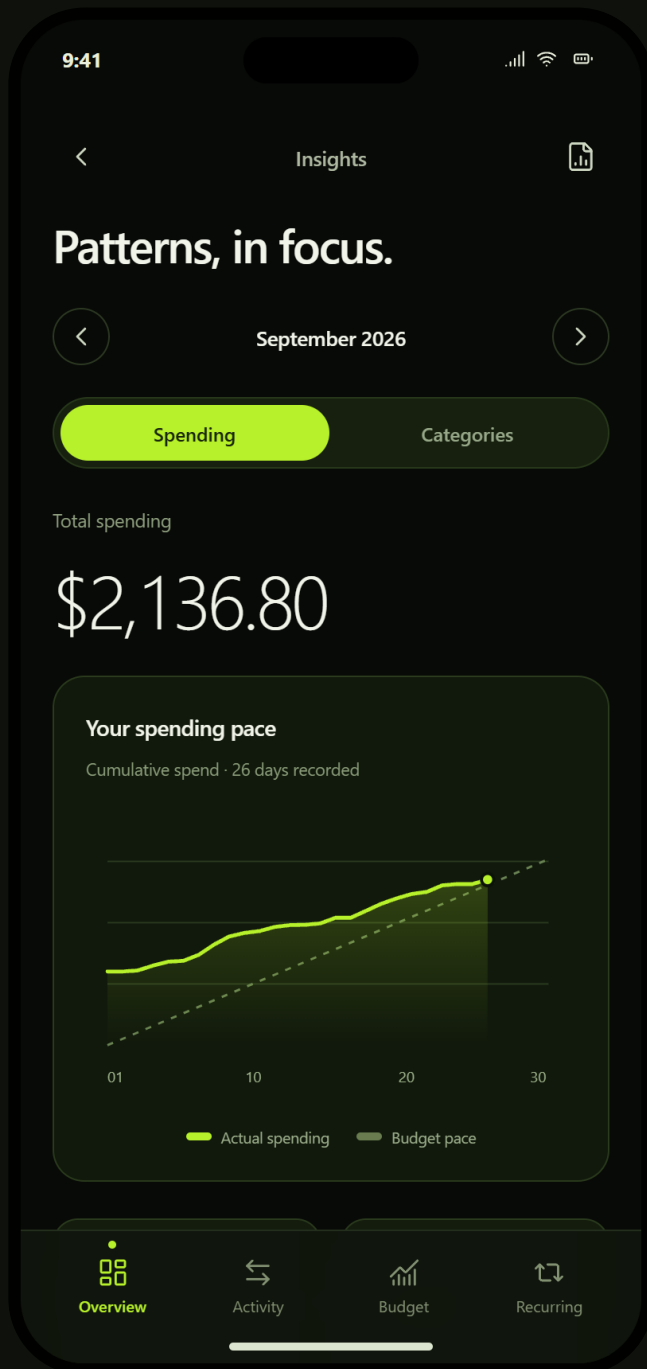

## 08 Set your budget

Category limits roll into one monthly budget, with a live preview before saving.

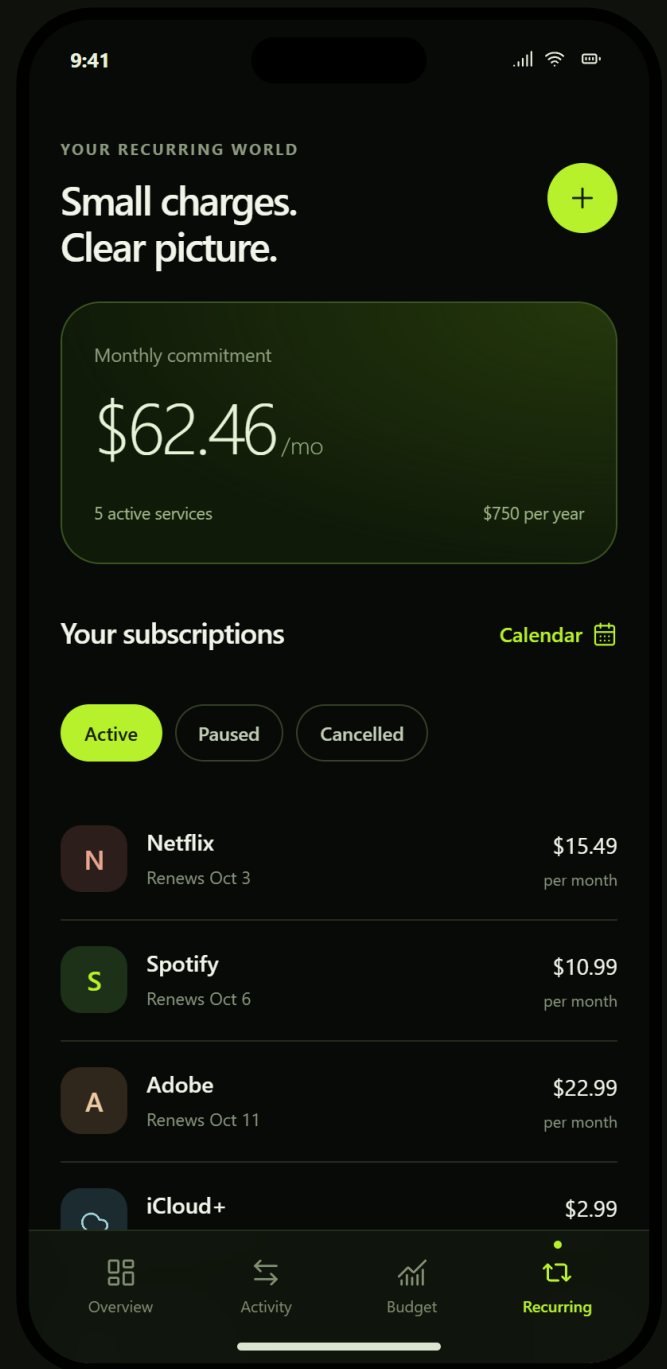

# Understand spending and commitments

A connected dark interface shaped by the supplied visual reference.

## 09 Spending insights

Cumulative spending and category shares reveal how the month is developing.

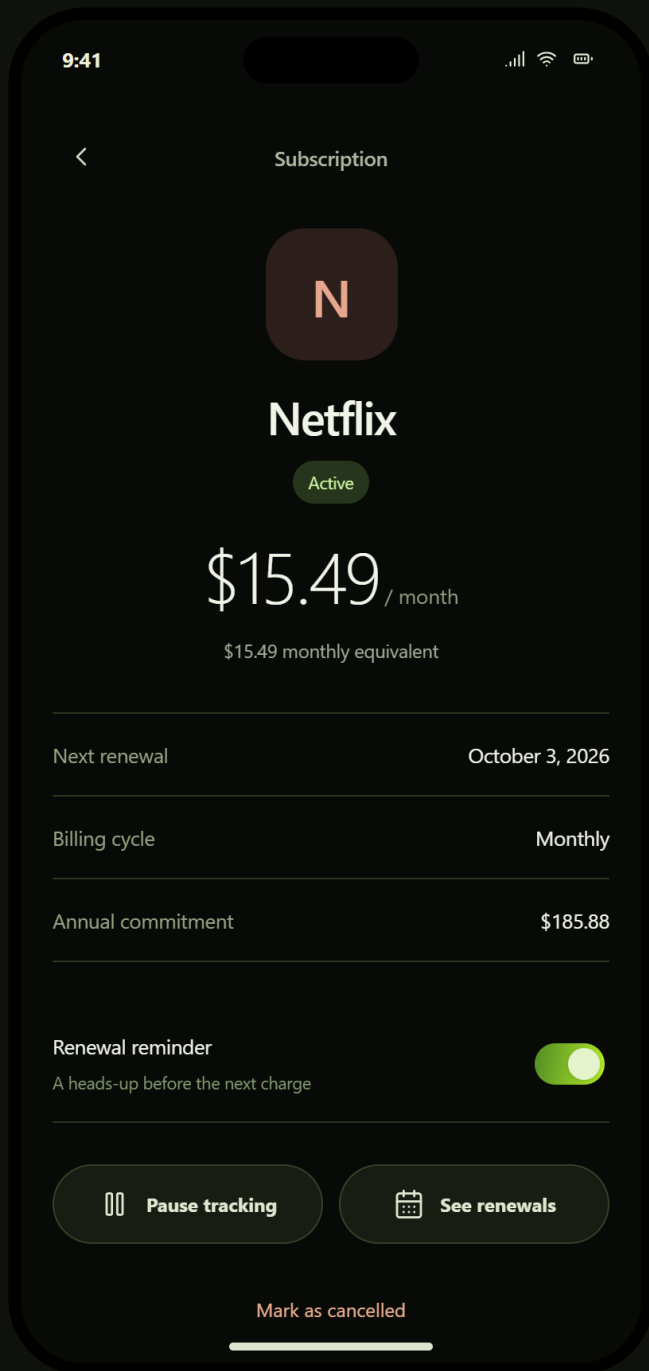

## 10 Subscriptions

Active commitments, monthly equivalents, and upcoming charges are gathered in one view.

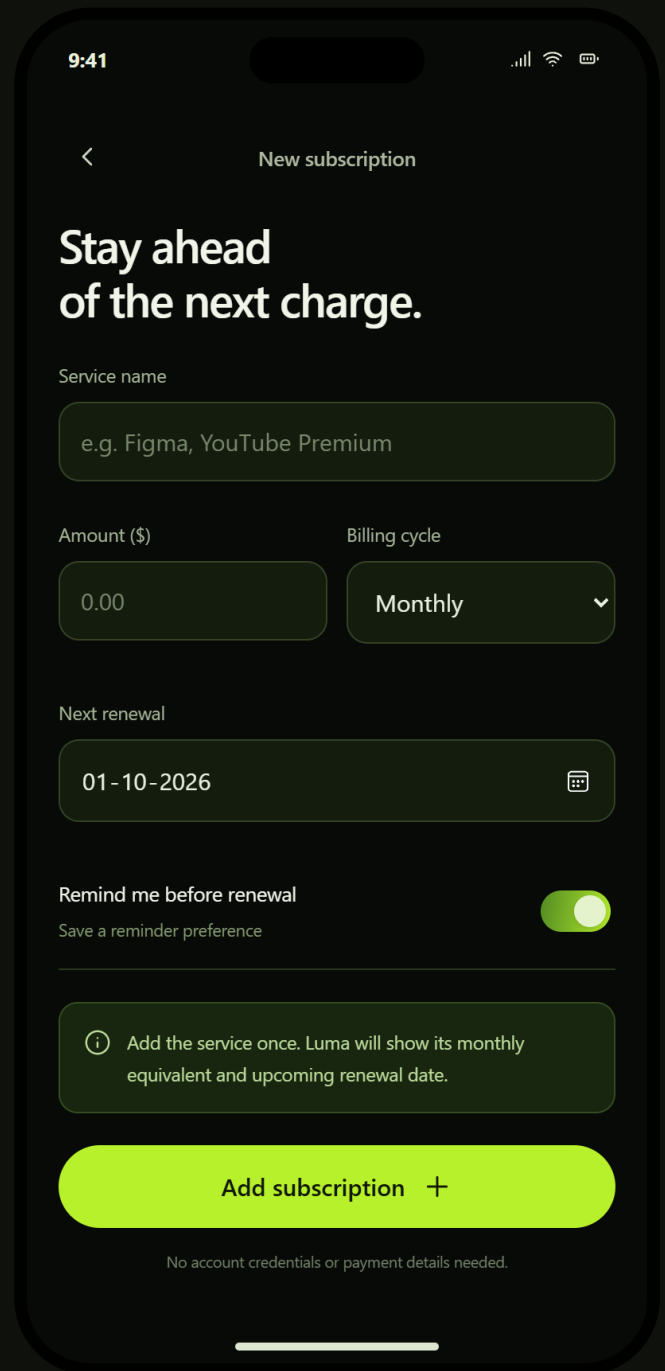

# Stay ahead of the next charge

A connected dark interface shaped by the supplied visual reference.

## 11 Subscription detail

Price, cadence, renewal date, and reminder controls make recurring spending visible.

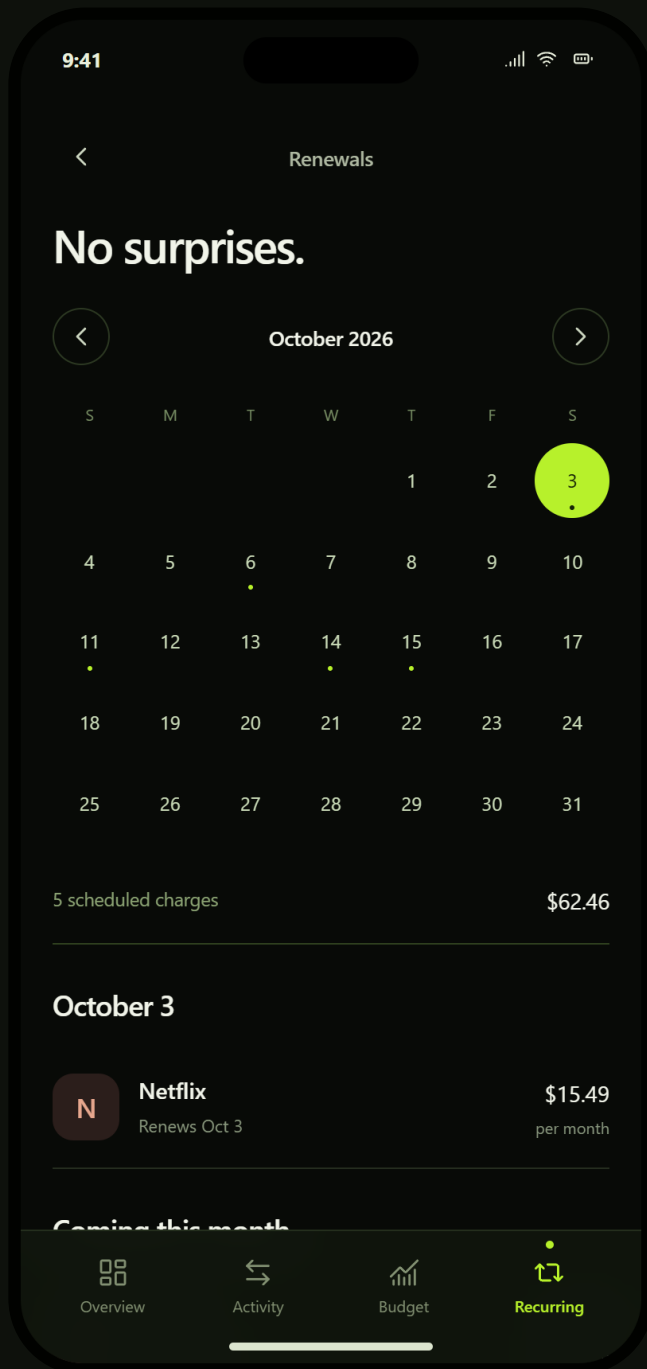

## 12 Add a subscription

Capture a service, its price, its billing cycle, and its next renewal date.

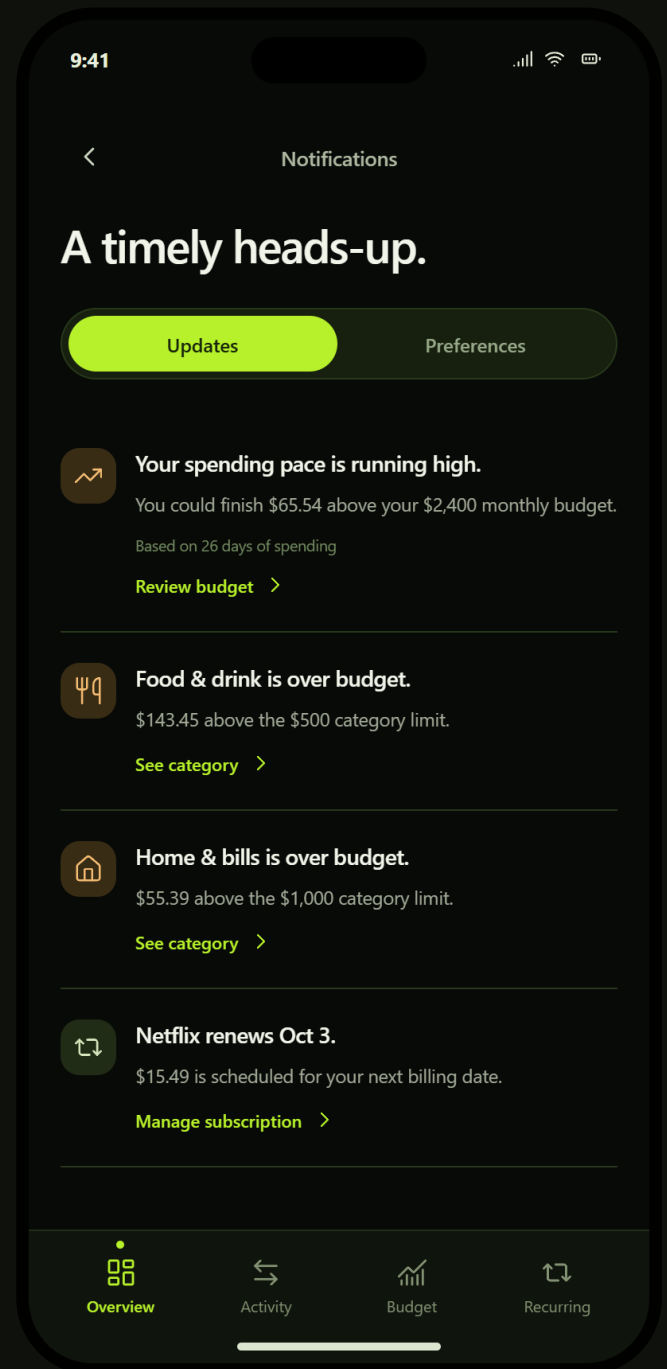

# A useful heads-up

A connected dark interface shaped by the supplied visual reference.

## 13 Renewal calendar

A calendar marks renewal days and reveals the charges expected on each date.

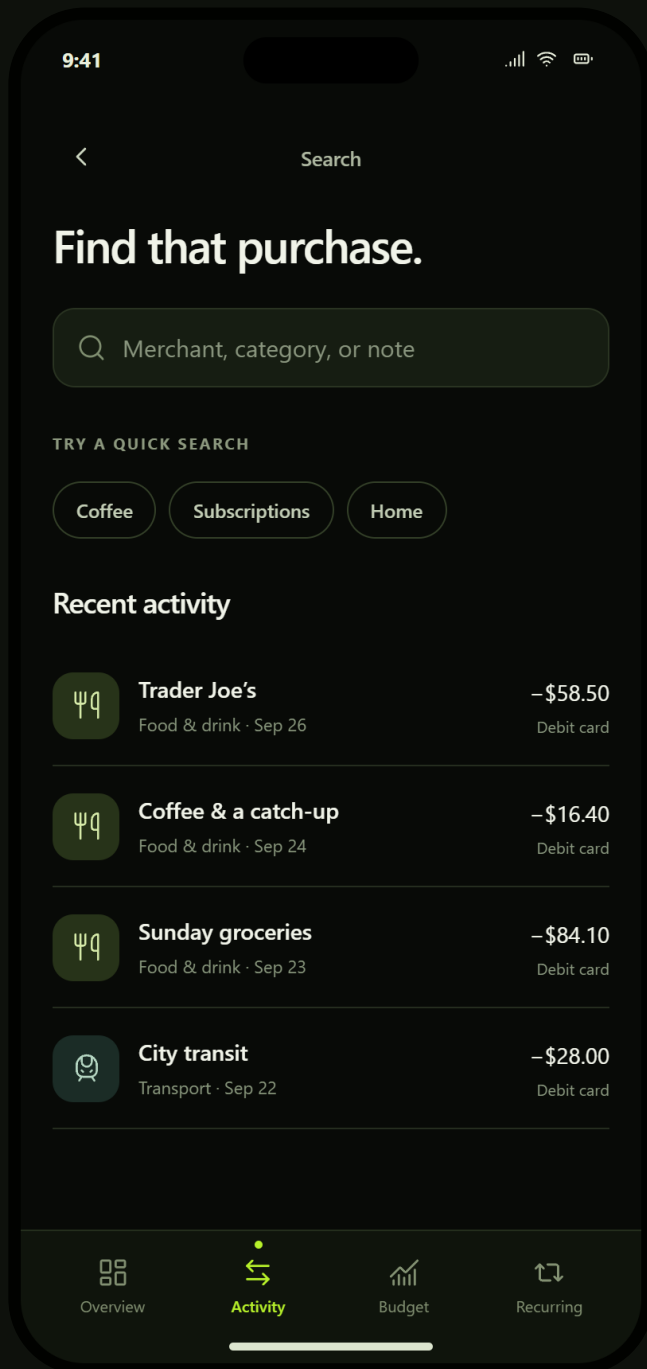

## 14 Budget alerts

Overspending and renewal reminders are separate from delivery preferences.

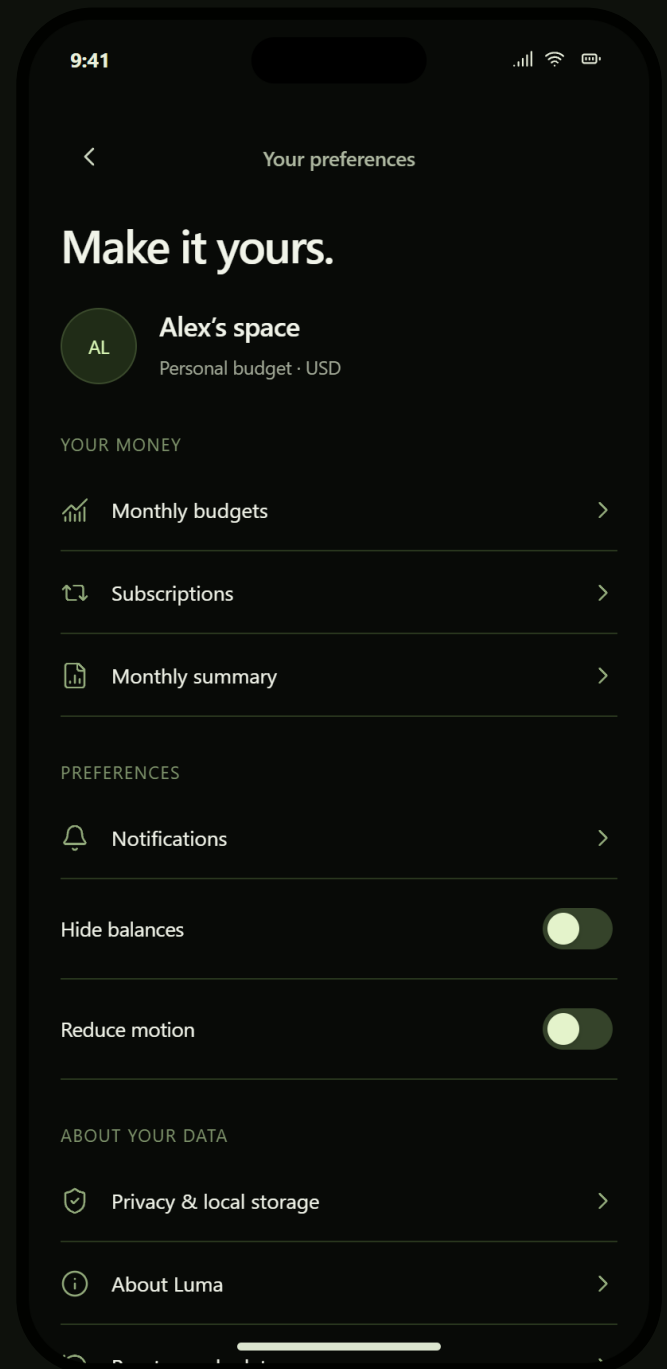

# Find details. Make it yours.

A connected dark interface shaped by the supplied visual reference.

## 15 Search expenses

Search merchant names, categories, and notes, with contextual results and a useful empty state.

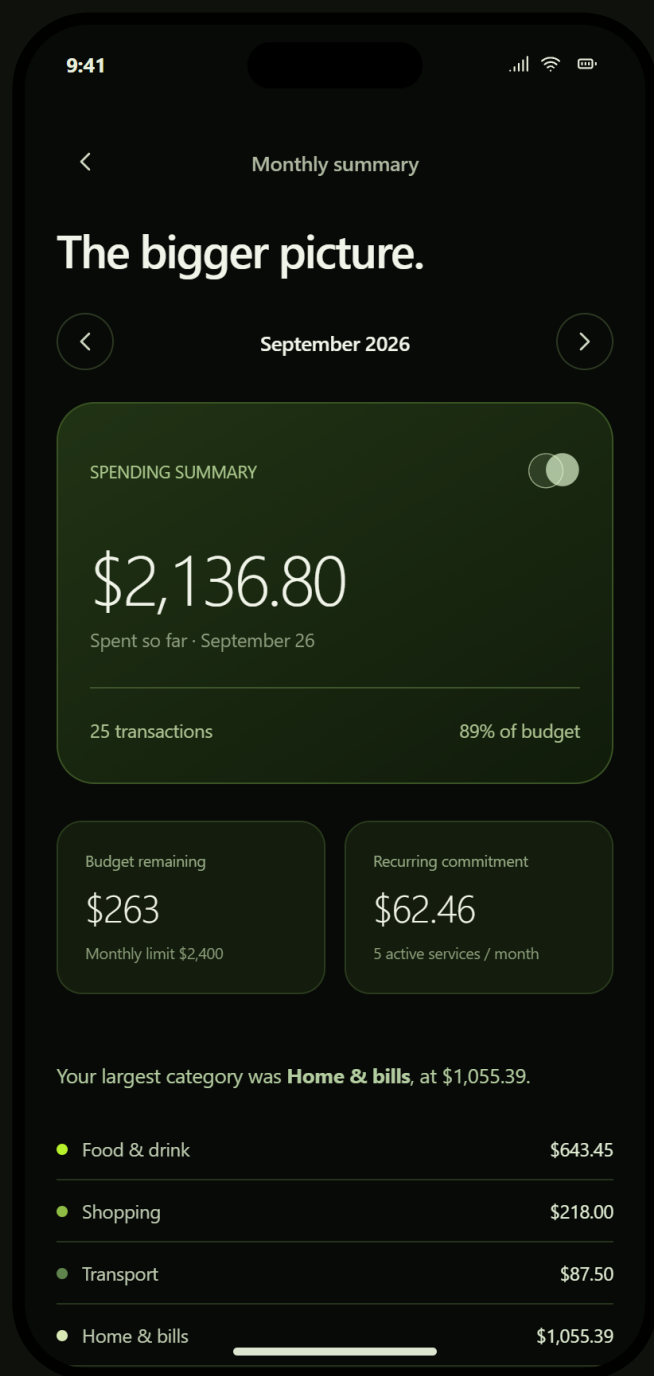

## 16 Settings

Simple grouped settings cover privacy, notifications, budget setup, and local demo data.

# The month, in perspective

A connected dark interface shaped by the supplied visual reference.

## 17 Monthly summary

One report connects total spending, remaining budget, category totals, and recurring commitments.

## The visual system

### Near-black foundation

Canvas #080A07. Raised surface #141711. Quiet dividers and open lists.

### Luminous lime focus

Action #B7F12B. Forest #234D11. A green balance surface echoes the reference.

### Light numerical typography

Large balances use light system sans-serif. Labels and body text stay clear.

### A deliberate shape language

Soft outer corners, angled balance cutout, overlapping circles, and compact controls.

### Connected calculations

One record set drives totals, category usage, monthly estimates, and alerts.

Sample records. Device-local storage. No bank connection or real provider cancellation.
