

# A city worth getting lost in.

A curated cultural guide connecting artists, studios, and the people who are curious enough to step inside.

17 screens. One inspiring weekend.

Interactive companion: open-studios-showcase.html

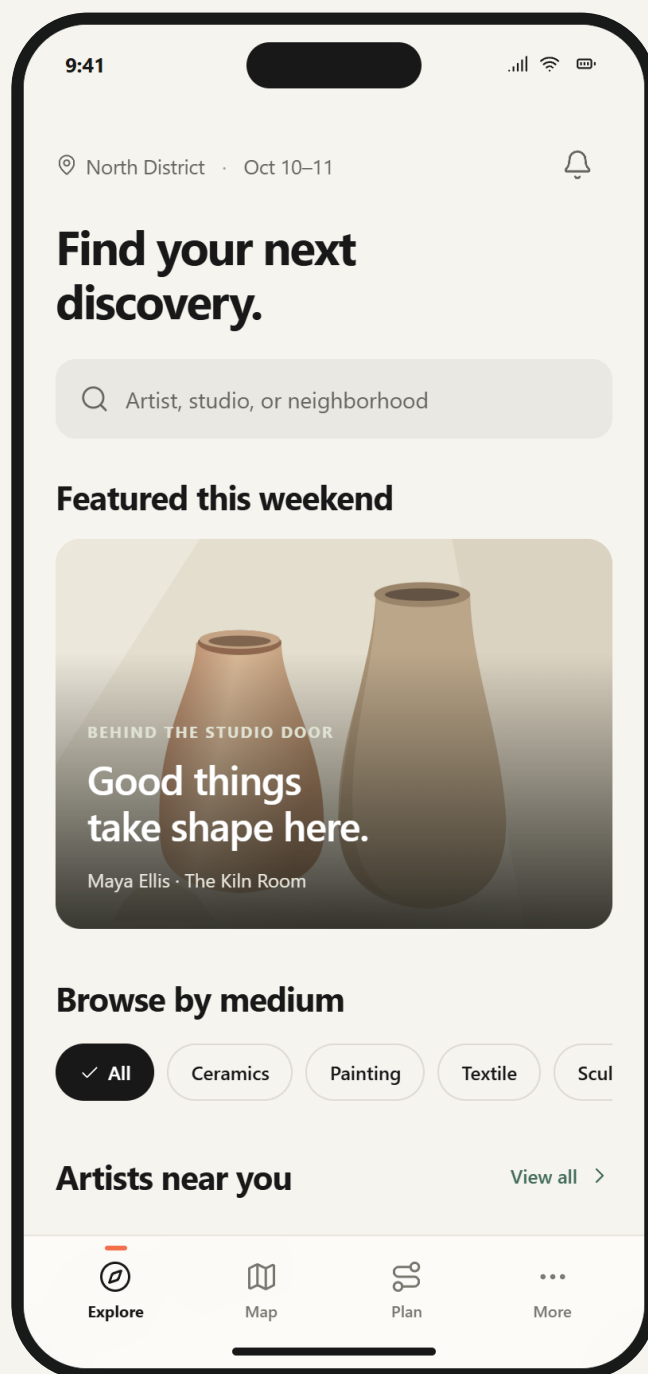

# Welcome to the creative city

Editorial clarity, familiar controls, and a clear next step.

## 01 Welcome

A quiet editorial opening: one clear promise, a sculptural artwork, and a single first step.

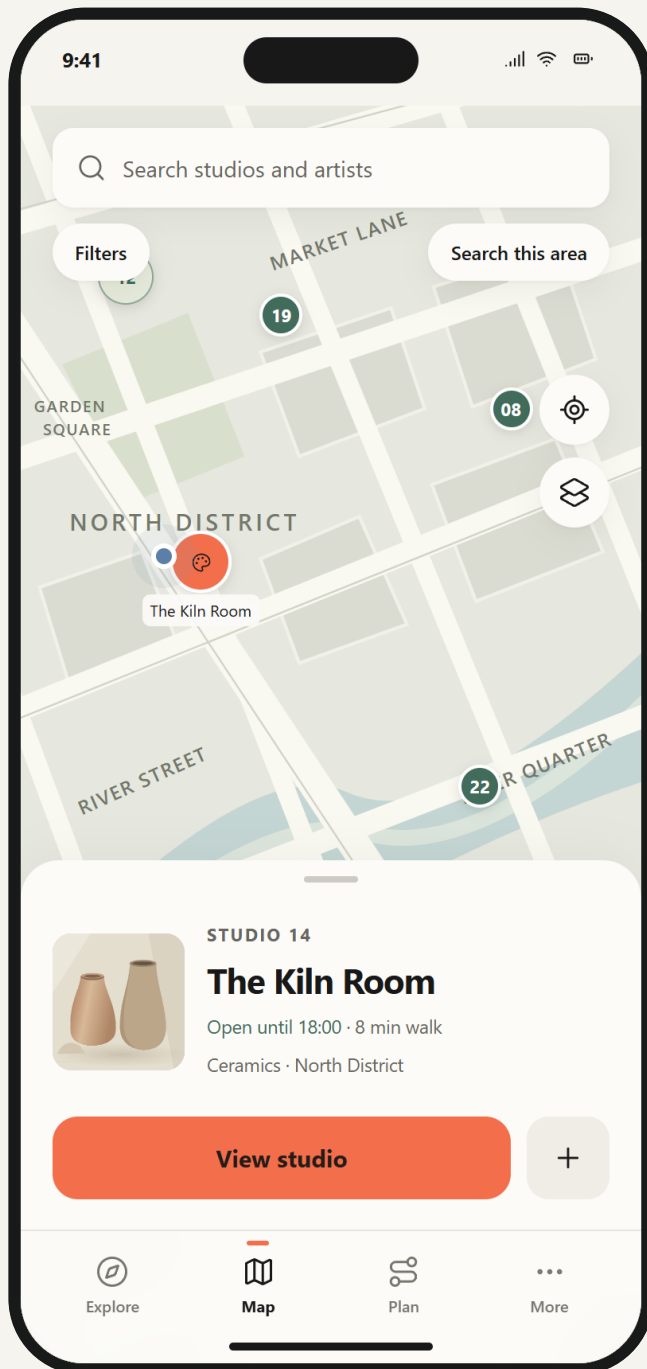

## 02 Explore / Home

A mix of editorial scale, tactile artwork, and compact artist rows gives discovery a natural rhythm.

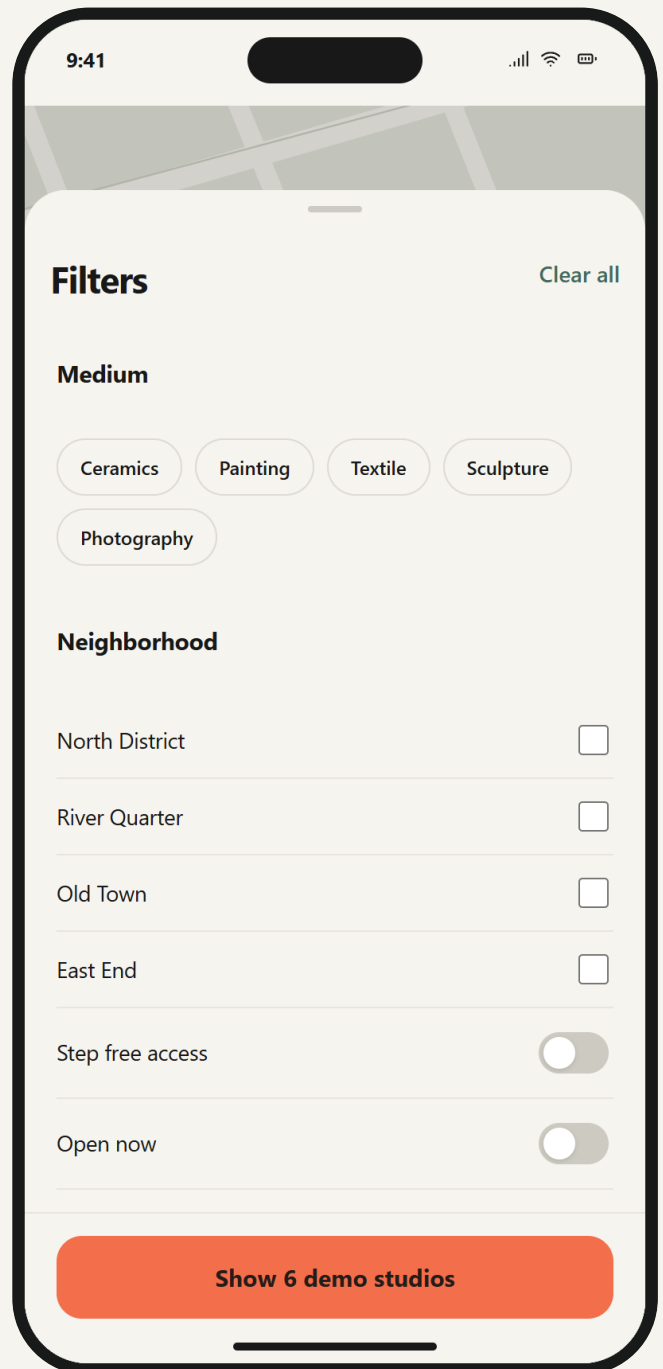

# Find a place worth visiting

Editorial clarity, familiar controls, and a clear next step.

## 03 Studio map

A calm city map with studio clusters, a selected pin, and a flexible place sheet.

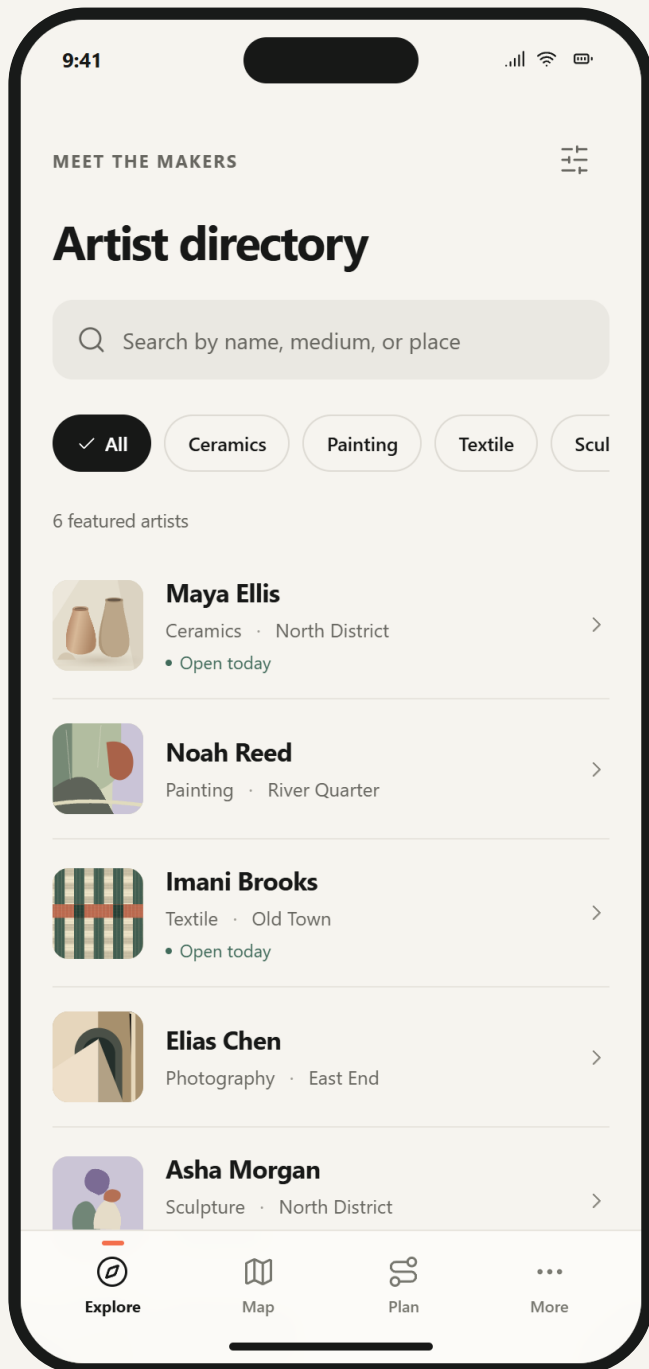

## 04 Map filters

Medium, neighborhood, accessibility, and opening status are grouped in a compact bottom sheet.

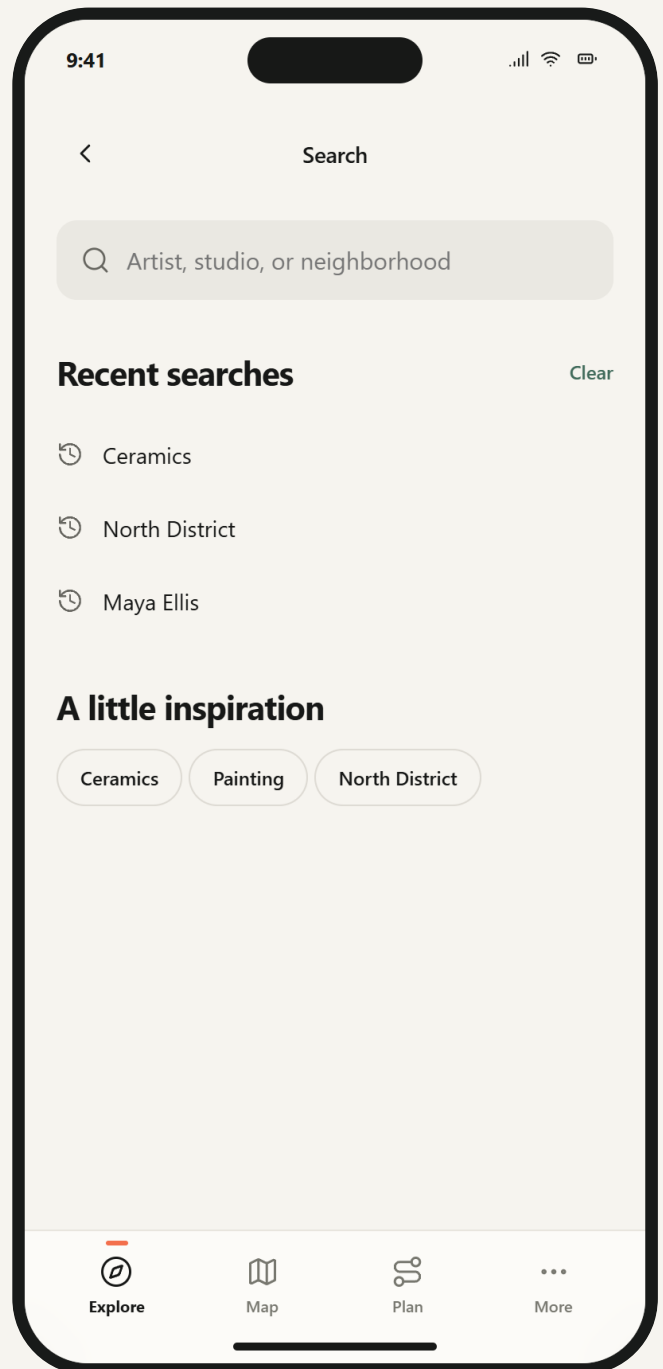

# Discover the people behind the work

Editorial clarity, familiar controls, and a clear next step.

## 05 Artist directory

Distinct artwork thumbnails anchor open editorial rows. Typography carries the hierarchy.

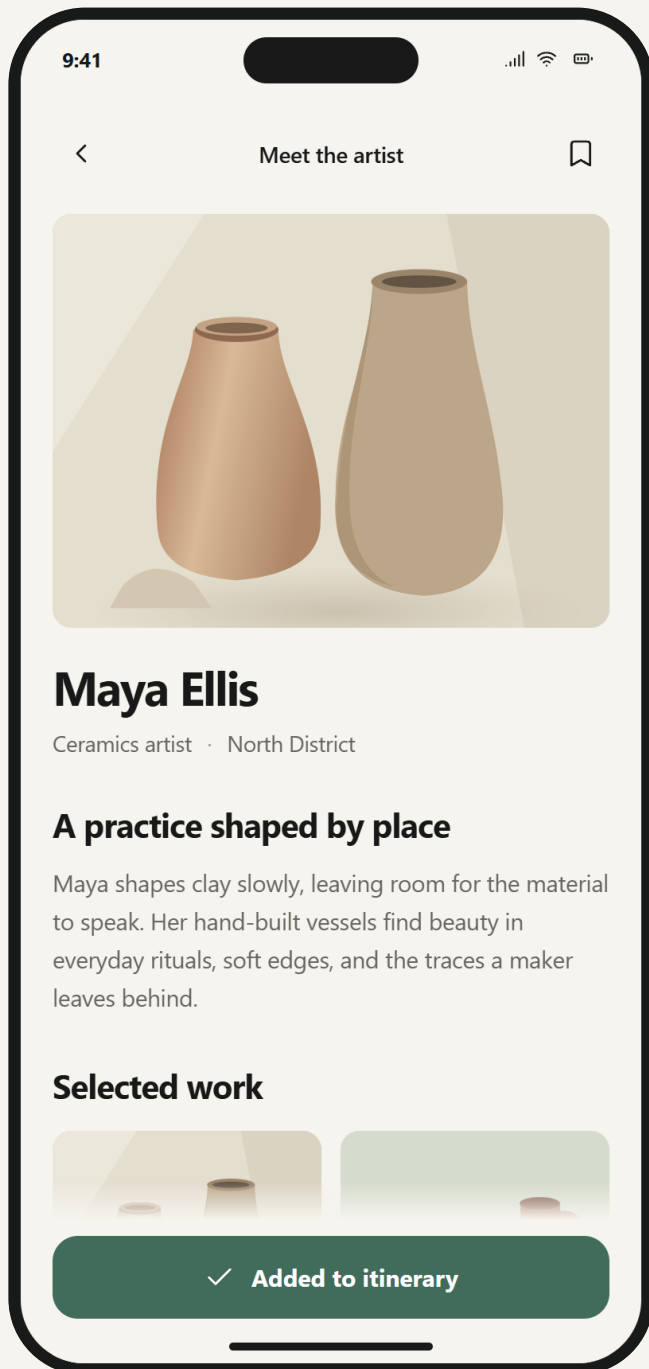

## 06 Directory search

Recent searches, categorized results, and a useful empty state make searching feel deliberate.

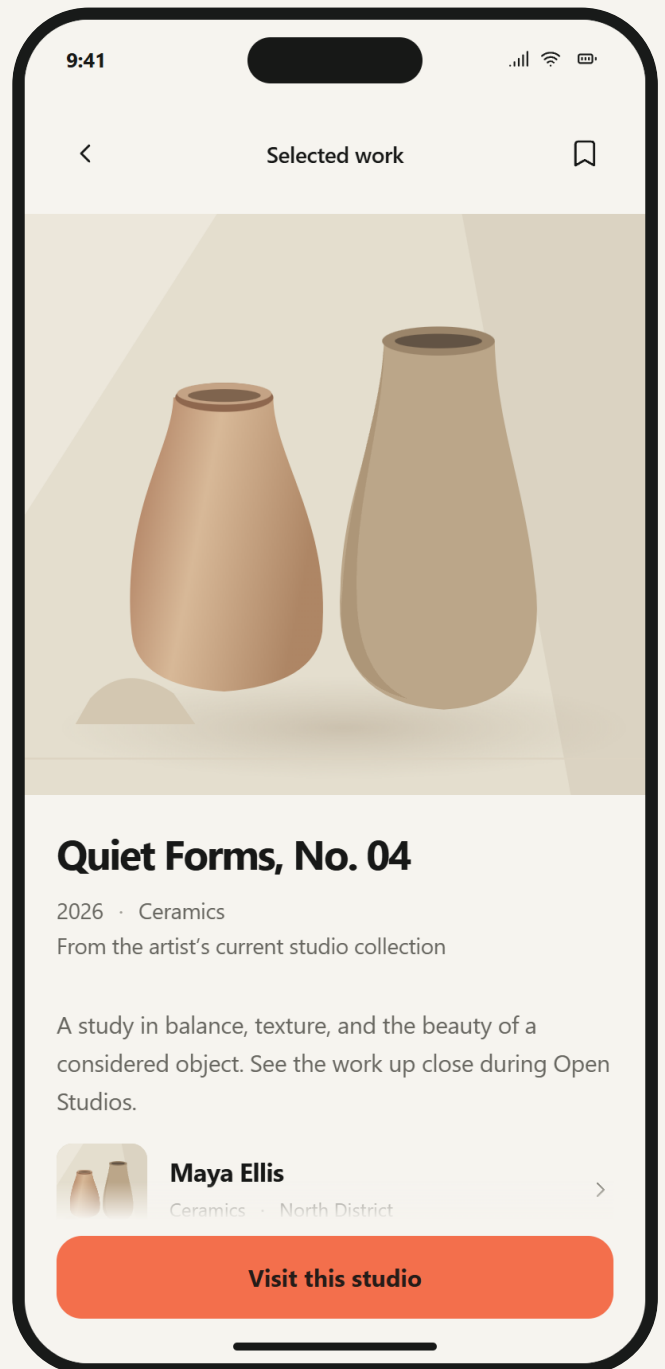

# A closer look at craft

Editorial clarity, familiar controls, and a clear next step.

## 07 Artist profile

A magazine-like artist profile connects biography, selected work, visiting details, and a studio map.

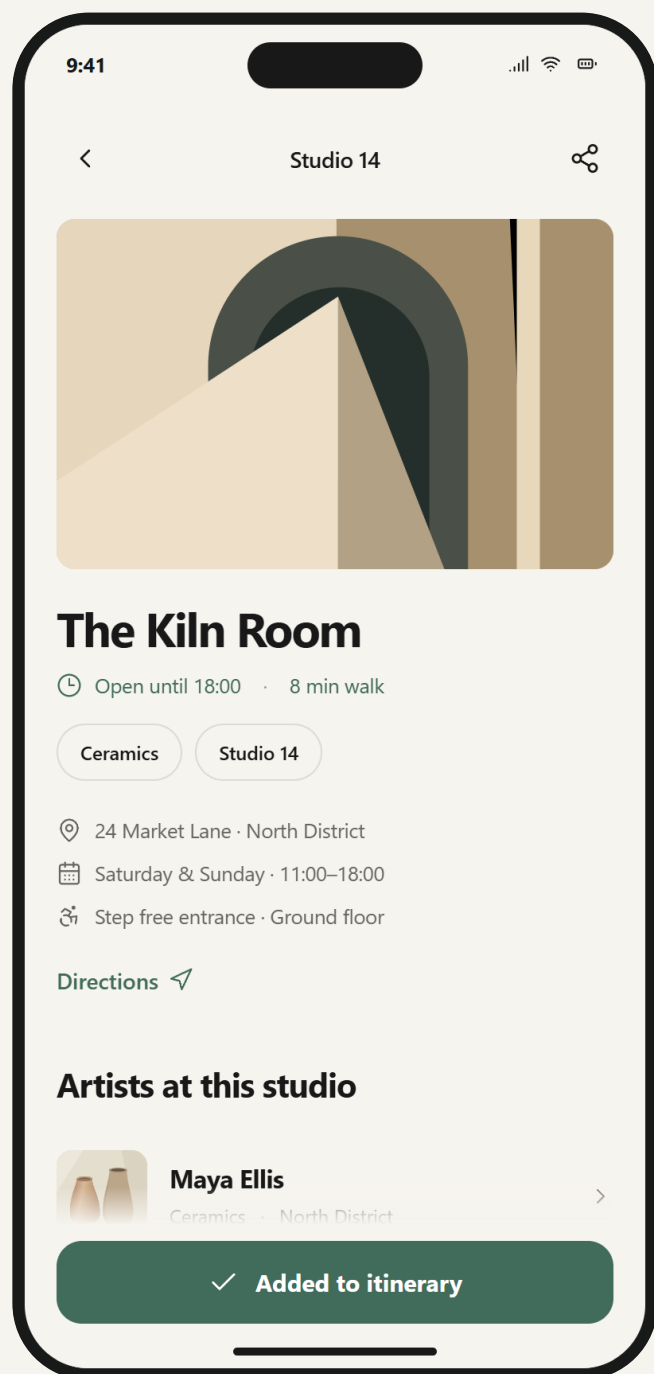

## 08 Artwork detail

The image leads, with restrained captions and a direct connection back to the artist and studio.

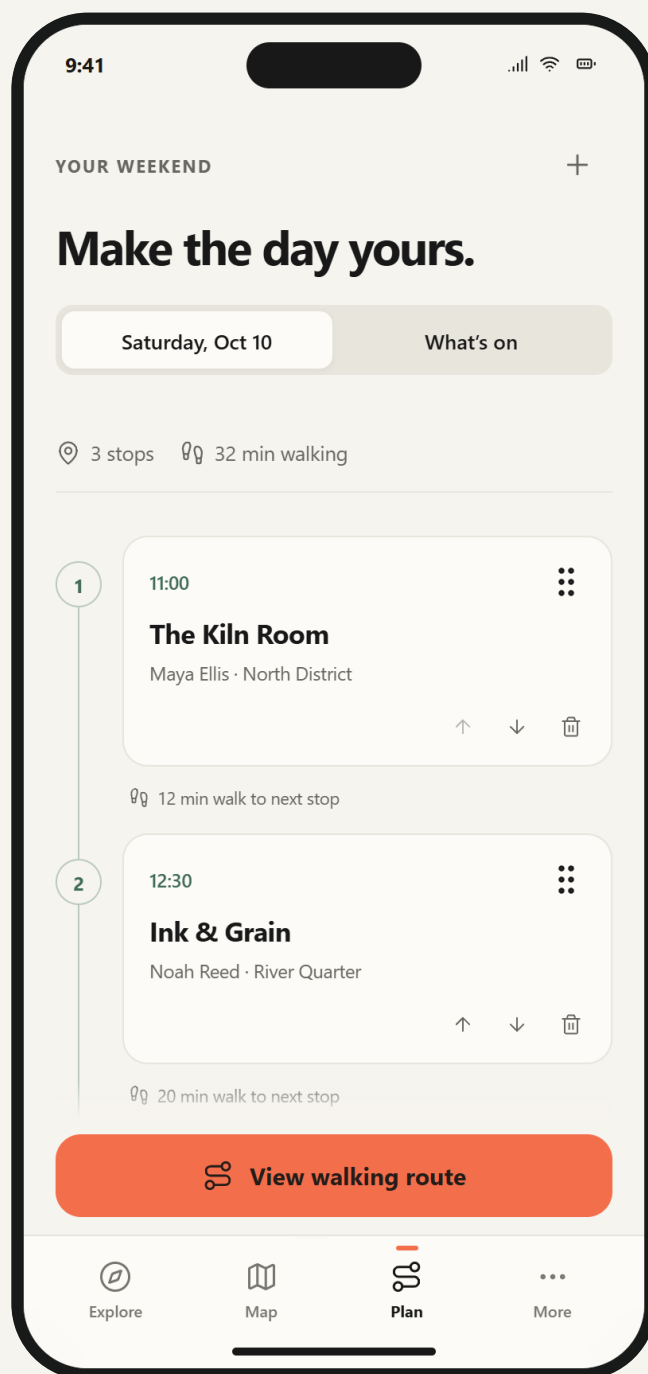

# From inspiration to itinerary

Editorial clarity, familiar controls, and a clear next step.

## 09 Studio detail

A place sheet balances opening status, useful visitor information, and the people who work there.

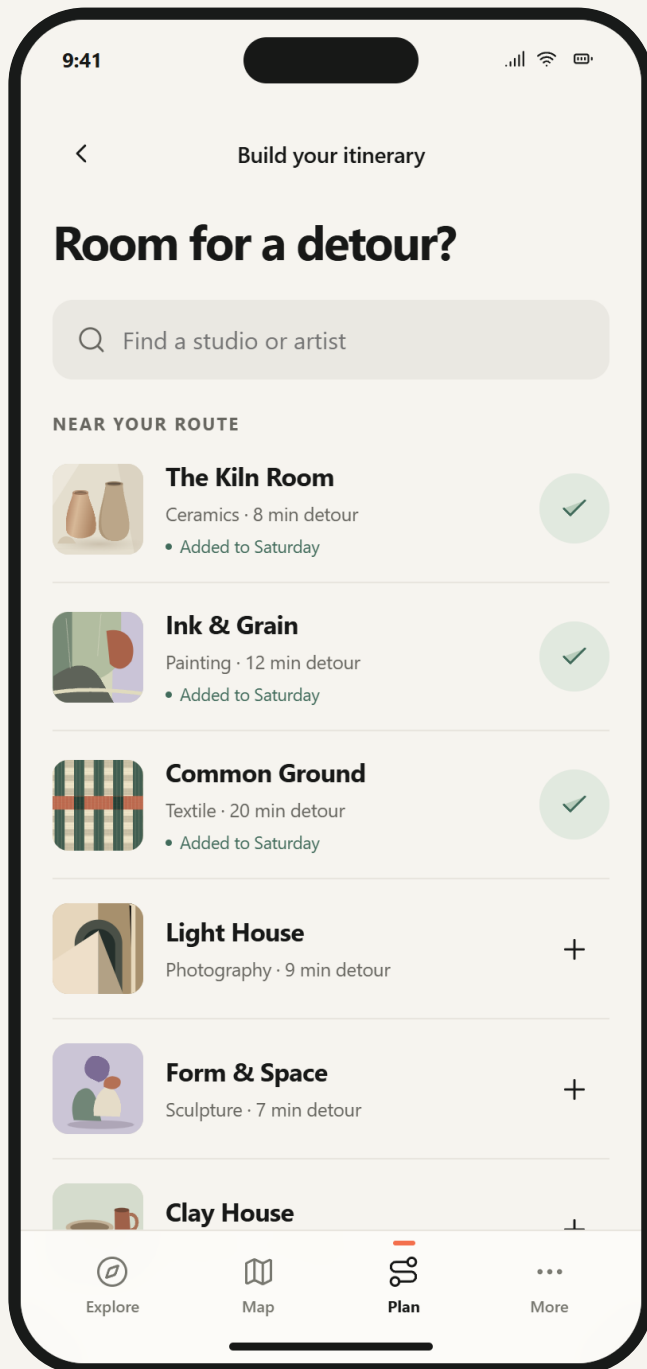

## 10 My itinerary

A timeline brings stops and walking estimates into one readable plan, with simple reorder controls.

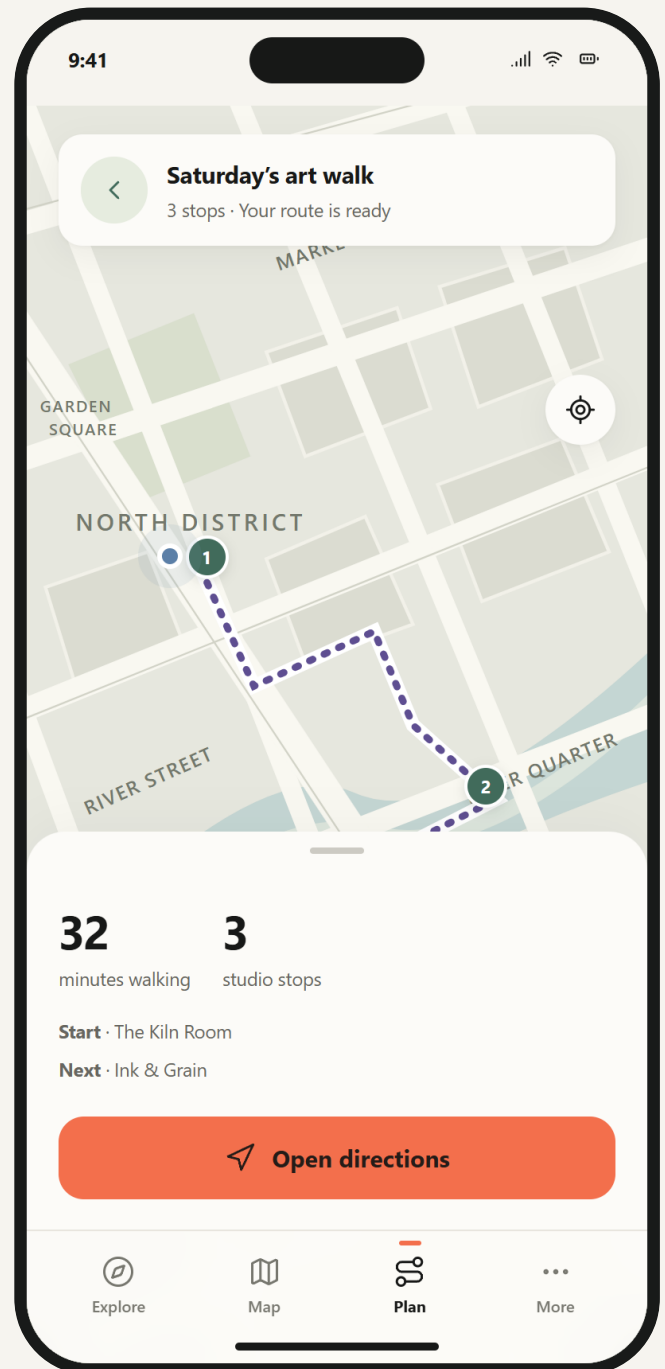

# A route shaped around you

Editorial clarity, familiar controls, and a clear next step.

## 11 Add a stop

Nearby suggestions show the extra walking time before you add a stop.

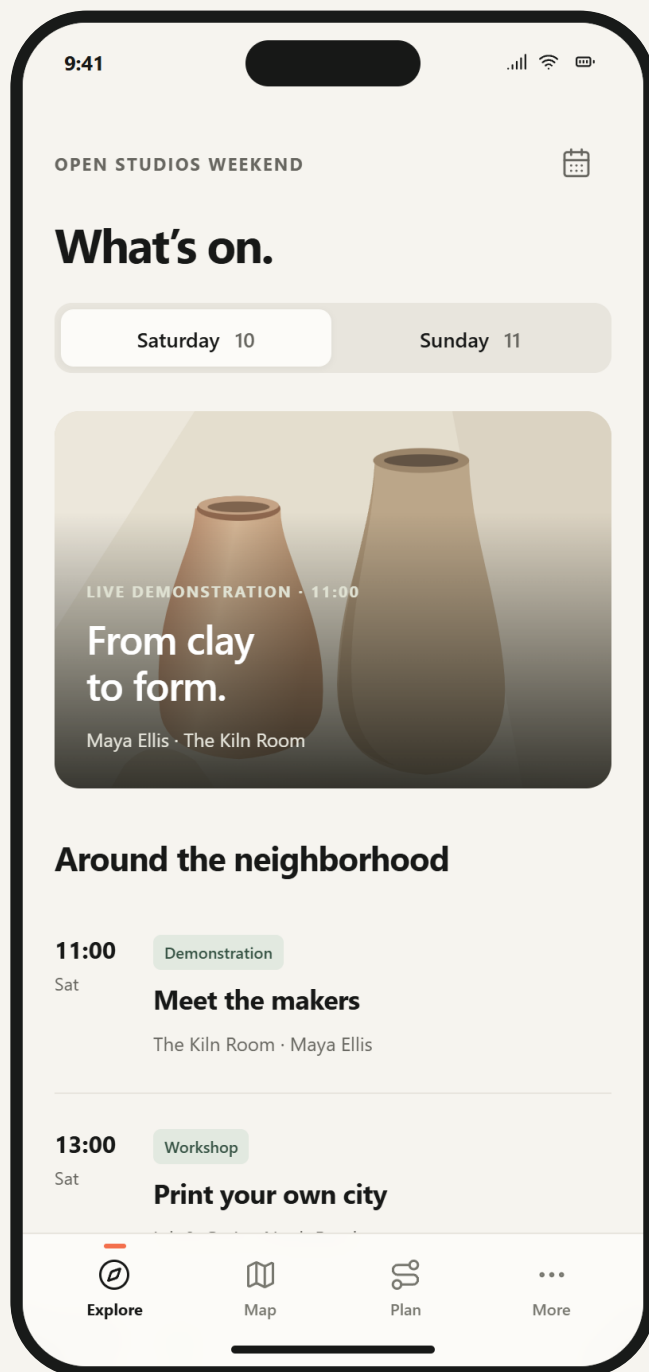

## 12 Walking route

A map-first route connects numbered stops to a compact walking summary and expandable itinerary.

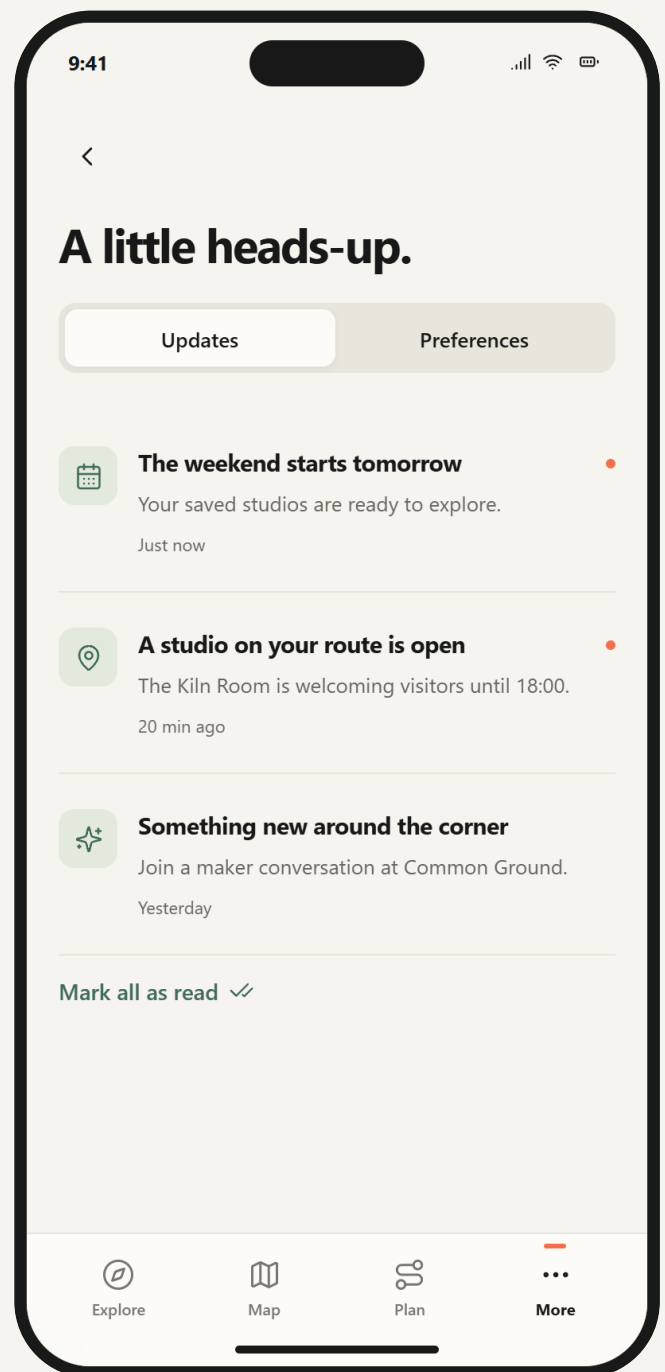

# A weekend full of possibility

Editorial clarity, familiar controls, and a clear next step.

## 13 Weekend events

One featured event and compact timed rows keep the weekend easy to scan.

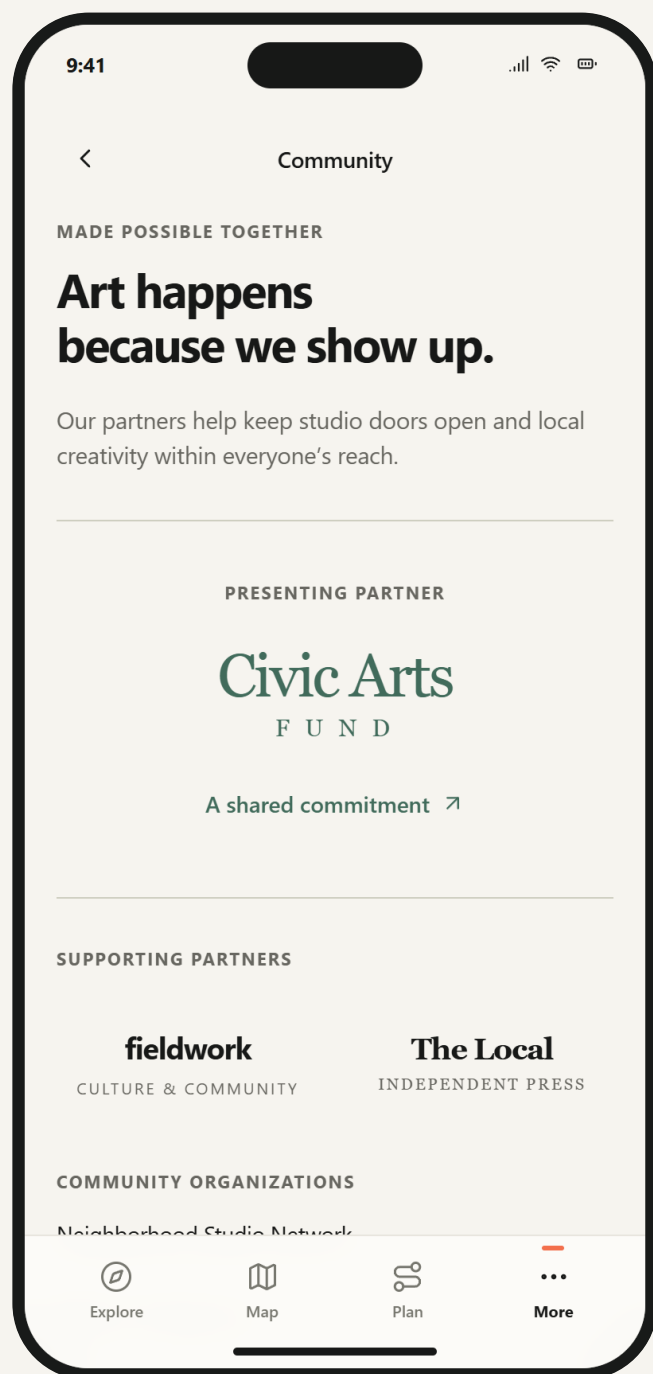

## 14 Notifications

Inbox entries and notification preferences occupy separate tabs, with clear unread and toggle states.

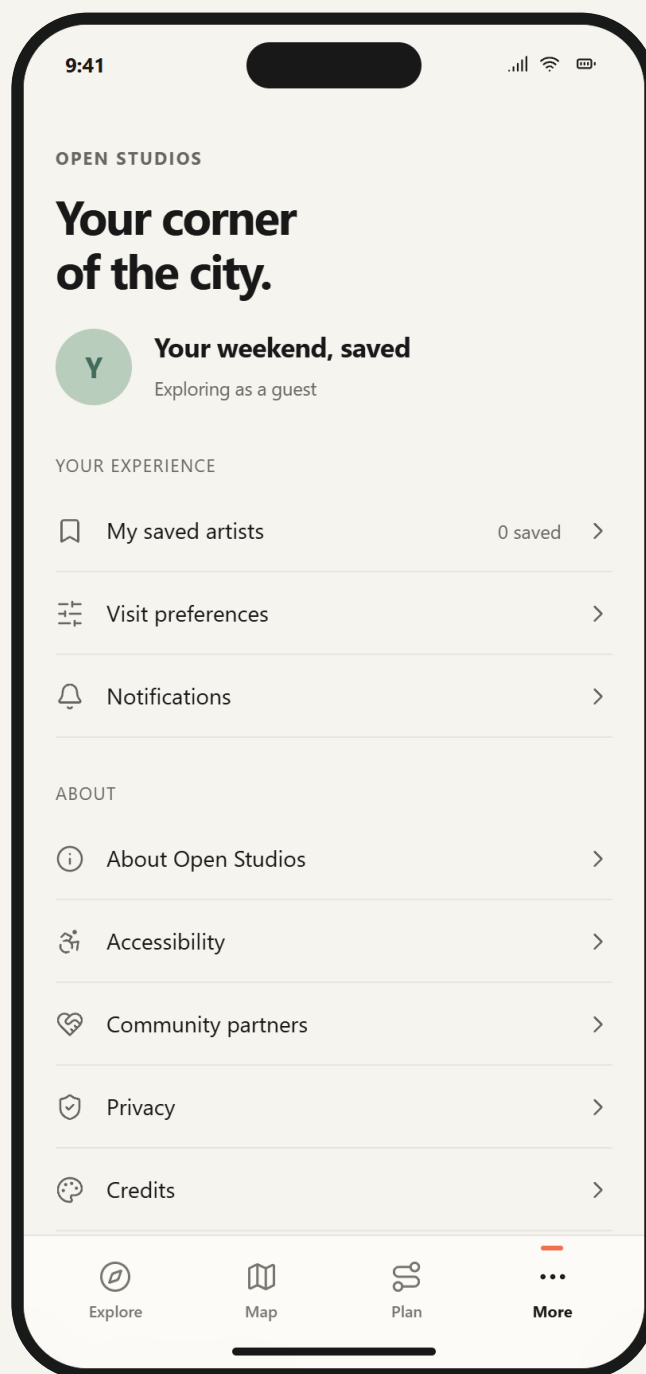

# The community around the art

Editorial clarity, familiar controls, and a clear next step.

## 15 Community partners

Partners receive a considered editorial treatment with a lead identity and supporting wordmarks.

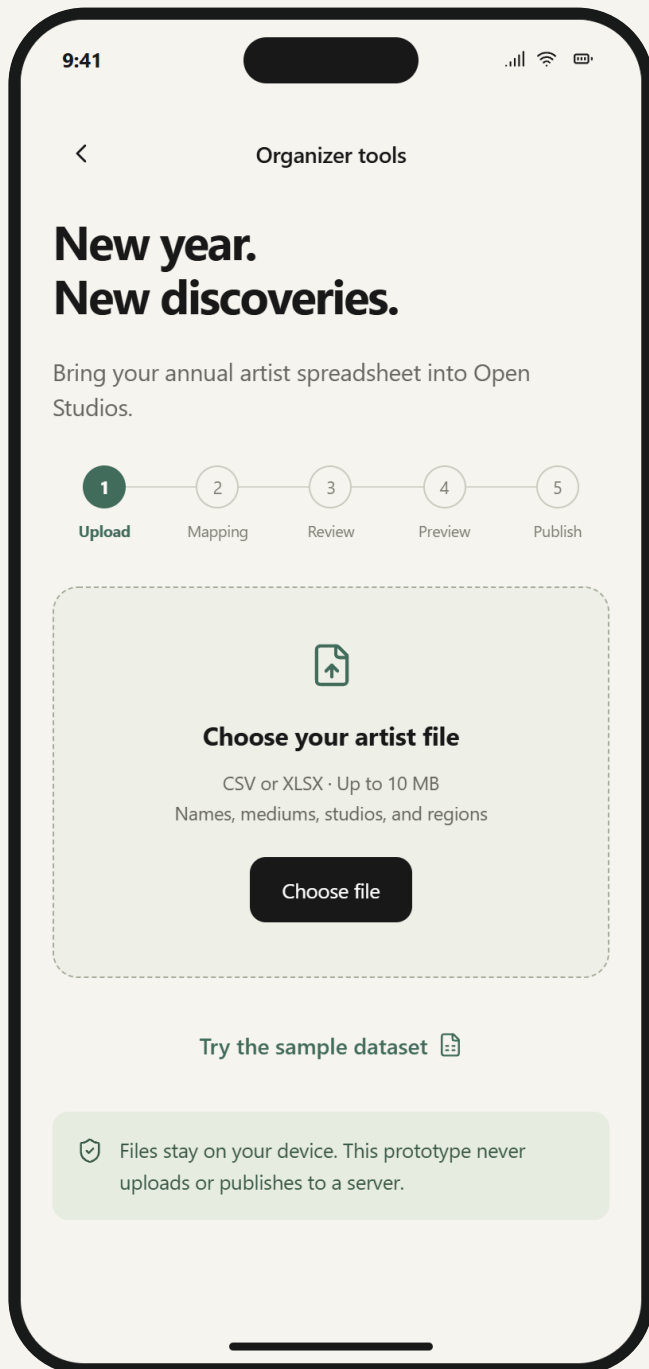

## 16 Preferences / Settings

Native grouped settings keep saved content, preferences, and organizer tools easy to find.

# A considered organizer workflow

Editorial clarity, familiar controls, and a clear next step.

## The interaction flow

### 01 Upload

Choose a CSV file or use the sample data.

### 02 Mapping

Match artist, medium, studio, and region columns.

### 03 Validation

Review missing values before continuing.

### 04 Preview

Check the first records and confirm the dataset.

### 05 Publish

Complete the local demo with a success state.

Files remain on the device. Publishing is simulated; no live data is changed.

## 17 Annual artist data import

Upload, mapping, validation, preview, and publish form a visible, reversible demo flow.
